DAYTIME ROAD CLOSURE ON ROUTE 103A IN NEW LONDON
DETOUR NECESSARY TO REPLACE FOUR-FOOT PIPE AT HERRICK COVE

The New Hampshire Department of Transportation announces NH Route 103A from Page Road to Columbus Ave. in the Town of New London will be closed to through daytime traffic for three days so an existing four-foot diameter pipe can be replaced.

This work is expected to take place from Monday, October 25, 2004 through Wednesday October 27, 2004 from 7:00 am to 5:00 pm daily. Motorists on NH 103A will be diverted onto I-89 between Exits 12 and 11 and King Hill Road. County Road, Page Road and Columbus Avenue will remain open to local traffic.

The project will include installing a new concrete pipe just north of the existing pipe, filling in the old pipe; placing stone fill at the outlet of both pipes, and paving the remaining portion of NH Route 103A.

The Department of Transportation's Highway Maintenance District 2 will be doing the work.
